

## Processing instructions

T2 is a paste-like release agent, which can be applied and polished easily. It guarantees a trouble-free demoulding process and is preferably used where rough or porous surfaces ( e.g. wood) have to be demoulded.

## In General

Sales units / packages: 0,500 kg tin / 2,500 kg bucket

## Storing

Keep away from sources of ignition

Do not store outdoors.

In case of extreme cold do stabilize to 15° C.

## Safety measure

Please follow the precaution instructions of the Government Safety Organisation of the chemical industry when working with this material. Please follow safety advices !

## Waste Disposal

According to arrangement with local authorities cured material can be disposed as domestic or commercial waste.

Non-cured products are waste which is subject to inspection and has to be disposed accordingly.

In case of further questions please do not hesitate to contact our Department for Product Safety.

The instructions and recommendations are given in good faith and are based on long experience and careful tests. Since the conditions of use are beyond our control, and due to versatility of applications and working methods, we can't give any guarantee. All information are non-binding and are no guarantee for special characteristics or properties of the product. Despite information given from **ebalta** the customer has to make his own tests regarding applications and processing. If any special warranty is requested, written agreement on this subject is essential.
